Summary

A Software Test Engineer seeking a challenging and progressive position to gain knowledge and experience from it.

Previous Work Experience:

QA Tester | Utest.com (freelance)

(06-2023 – current position)

- Engaged in crowd-sourced testing projects on the Utest.com platform, collaborating with diverse teams of testers worldwide.
- Conducted comprehensive testing, including functional, usability, and exploratory testing, for a variety of software applications.
- Provided valuable feedback and bug reports to clients, contributing to the improvement of software quality.
- Received positive ratings and feedback from project managers and clients for attention to detail and thorough testing.
- Contributed to crowd-sourced testing projects for globally recognized brands, including “Tidal”, “Nike”, and “Moncler”.

Auto - diagnostic Specialist

(09-2011 – 11-2023)

- Specialized in autodiagnostic assessments exclusively within the VAG group, utilizing advanced diagnostic tools and methodologies tailored for Volkswagen, Audi, SEAT, and Škoda vehicles.

- Worked closely with a skilled team to identify and resolve complex automotive issues specific to the VAG group, contributing to a significant reduction in turnaround times for these brands.
